

HADIYA SHAMEER

Aspiring Full Stack Developer

Doha, Qatar

+974 33638455 | hadiyyashameer@gmail.com | [linkedin.com/in/hadiya-shameer](https://www.linkedin.com/in/hadiya-shameer)

Professional Summary

Motivated Full Stack Developer (MERN) with hands-on experience building responsive, full-stack web applications using React, Node.js, and MongoDB. Strong in RESTful API integration, UI/UX design, and payment gateways like Stripe. Backed by a background in Computer Applications and teaching, bringing excellent problem-solving, communication, and learning agility.

Certifications

- **Certification in Full Stack Web Development(MERN)** – Illinois Tech US – *In Progress*
 - Cover both front-end and back-end technologies, including HTML, CSS, JavaScript, and React.js for building dynamic user interfaces.
 - Explor server-side development with Node.js and Express.js while integrating MongoDB for efficient data storage and retrieval.
 - **Full Stack Web Development(MERN)** – Entri Elevate - *In Progress*
 - **Responsive Web Design** – FreeCodeCamp
 - **Certificate of Proficiency in C# .NET** – Quest Innovative Solutions Pvt Ltd
 - **Certificate of Excellence** – Technophilia Systems Robotics & Computer Applications Institute of USA
 - **Infosys Campus Connect Foundation Program** – Infosys
-

Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+), Node.js
- **Front-End Frameworks:** React.js, Bootstrap, React Bootstrap, Tailwind CSS
- **Back-End Development:** Express.js, RESTful API design and development, Middleware integration
- **Database Management:** MongoDB, CRUD operations, data validation
- **State Management:** Redux, Redux Toolkit, React Context API
- **Authentication & Security:** JWT, Route protection, Role-based access control
- **Payment Integration:** Stripe Payment Gateway integration
- **Filtering & Search:** Dynamic frontend/backend filtering
- **Version Control & Deployment:** Git, GitHub, GitHub Pages, Netlify, Vercel, Render
- **Cloud Services:** AWS
- **Testing & Debugging Tools:** Postman (API testing), DevTools
- **Tools & Build Systems:** NPM, Vite
- **APIs:** RESTful API creation and consumption, Fetch API, third-party API integration
- **UI/UX Design:** Responsive Web Design, Mobile-First Design, Cross-Browser Compatibility
- **Development Methodologies:** Agile/Scrum, Feature-based development
- **Soft Skills:** Creative problem-solving, Strong communication, Fast learner, Adaptable, Team player

Projects

Ride Qatar - Car Rental Web Application

(Tech Stack: MERN - MongoDB, Express.js, React.js, Node.js)

(Live Demo: <https://car-rental-client-mauve.vercel.app/>)

- Developed a full-stack rental app with car filtering (SUV, Sedan, etc.) and booking functionality.
- Implemented secure JWT-based authentication and role-based access (user/dealer).
- Built REST APIs with Express and MongoDB (Mongoose).
- Integrated Stripe for secure online payments.
- Created responsive UI using Tailwind and managed global state with Redux Toolkit.
- Deployed frontend (Vercel) and backend (Render), using Git for version control.

eStore : E-commerce Website

(Live Demo: <https://hadiyasameer.github.io/estore/>)

- Developed a fully functional front-end for an e-commerce site using React.js, and React Router for seamless navigation between pages.
- Integrated RESTful API to fetch and display product data dynamically. Ensured cross-browser compatibility and responsive design.
- Utilized React Hooks (useState, useEffect) for state management.
- Designed responsive UI using Bootstrap for a clean and modern look.
- Deployed on GitHub Pages using Git for version control.

MovieDetails – Detailed Movie Information

(Live Demo: <https://hadiyasameer.github.io/movie-details/>)

- Built a MovieDetails component to display detailed movie information such as title, overview, and poster using React and React Router.
- Integrated Axios to fetch detailed data from The Movie Database (TMDb) API based on dynamic movie IDs passed through the URL.
- Used React's useParams to extract movie IDs from URLs, dynamically rendering the corresponding movie details.
- Applied loading states to improve user experience while waiting for API data to load.

Gucci E-Commerce Store

(Live Demo: <https://hadiyasameer.github.io/guccibyreactbootstrap/>)

- Designed and implemented a Gucci-inspired e-commerce site showcasing premium footwear.
- Integrated React Modal and Carousel components for detailed product views.
- Ensured responsive design using React Bootstrap.
- Developed product display with dynamic data handling, using React props for smooth rendering.
- Deployed the project on GitHub Pages for easy access and online demonstration.

Work Experience

Administrative Assistant & Web Support | KCMS Kerala, India | 03/2020 - 07/ 2021

- Provided basic web support for content updates and technical documentation.
- Managed records and supported IT-related administrative functions.

Assistant Professor - Computer Application | WIRAS Kerala, India | 06/2016 – 04/2017

- Taught web development, programming languages, and software engineering principles.
- Mentored students in HTML, CSS, and Java, C#.NET, ASP.NET and MySQL.

Education

Bachelor of Technology in Computer Science & Engineering

Cochin University of Science And Technology
